

### **Our Financial Policy**

Our practice makes every effort to keep down the cost of medical care. One way we do this is asking that you pay for all office visits at the time the services are rendered. Our charges are comparable to those of other specialists with equivalent training and experience. Charges for office visits, hospital care and diagnostic procedures are determined by the complexity of the problem and treatment plan.

Following your visit, a receipt for payment will be presented to you which will include the appropriate procedure and diagnosis codes determined by your physician. You may submit the statement to your insurance company for your direct reimbursement should you choose to look for compensation. Our practice does not file to insurance companies other than Medicare and supplemental carriers.

#### **Surgical Fees:**

Surgical fees are discussed with each patient individually after evaluation. A specific period of post operative care will be included in the charge for most operations. This includes routine treatment directly related to the surgery, but not unexpected complications or unrelated conditions.

We recognize the need for definite understanding between the patient and the doctor regarding financial arrangements. The responsibility for payment of these fees is the direct obligation of the patient. **Any financial benefits that the patient may receive from an insurance company is a matter of settlement solely between patient and carrier involved.**

The office manager is available to discuss any of the financial aspects of your care.

Thank you for placing your trust in Hillstrom Facial Plastic Surgery.

Robert P. Hillstrom, M.D., F.A.C.S.

\*\*I certify that I have read this form, fully understand and comply with the financial terms related to my medical care.
